

GIS Mapping Development Analyst

Job Description

Department: Recorder
Position: Career Service
Grade: 725
Supervisory: Lead
Reports to: GIS Cadastral Supervisor

Summary

Under general guidance and direction of the GIS Cadastral Supervisor, performs advanced cadastral mapping work. Incumbent assists with overseeing the work of the division and provides training to others in a broad array of mapping and recording work. Functions as liaison with the GIS Manager and team and the Information Systems department in the analysis, design, production, programming, database maintenance, and implementation of related GIS projects.

Essential Functions

Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

1. Function as liaison with the GIS Manager and team and the Information Systems department in the analysis, design, production, programming, database maintenance, and implementation of related GIS projects; coordinate efforts to ensure county-wide GIS programs accommodate the needs of the Recorder's Office.
2. Assist GIS Cadastral Supervisor with ensuring division personnel receive accurate training in work processes; function as primary trainer on implementing programming changes.
3. Maintain up-to-date knowledge on programming applications and various computer programs and languages needed to write applicable GIS programs.
4. Analyze, evaluate, and interpret legal records pertaining to land ownership from multiple sources; determine the intent of conveying documents and the area to which they apply in order to ensure accurate records and maps.
5. Create, maintain, and revise official parcel maps in digital form to accurately represent land parcels, subdivisions, and tax districts; plot parcel boundaries on cadastral maps using GIS software; understand and employ manual drafting methods, as needed.
6. Ensure compliance with state code requirements for recording; review submitted subdivision, condominium, and annexation plats for engineering and title discrepancies.
7. Discover and analyze discrepancies in title, erroneous and incomplete legal descriptions and maps, and documentary defects through title history and legal description research.
8. Create and maintain the parcel abstract index used by department personnel, other county departments, title agents and associated industry professionals, and the general public; assign

parcel identification numbers and identify the tax district according to jurisdictional boundaries; verify current ownership of property.

9. Ensure accuracy of property and ownership boundaries; perform geographic mapping and analysis, including complex and technical engineering calculations to determine parcel areas, title boundaries, angles and bearings, and distances.
10. Conduct research of historical data for ownership and boundary changes regarding taxable parcels.

Knowledge, Skills, and Abilities

- Considerable knowledge of state laws governing recording, indexing, and mapping of legal documents
- Knowledge of Geographic Information Systems (GIS) technology and its application to recorder mapping functions
- Knowledge of abstracting techniques
- Knowledge of coordinate geometry (COGO) applications and applied trigonometry
- Knowledge of real estate and title law as applied to the Recorder's Office
- Knowledge of surveying and civil engineering practices as applied to the Recorder's Office
- Skilled in using GIS software
- Skilled in using various software programs unique to Utah County and/or the Recorder's office
- Skilled in drafting and conducting title searches and technical evaluations
- Ability to lead and train others while maintaining own workload
- Ability to maintain cooperative relationships with those contacted during the course of work activities
- Ability to communicate effectively verbally and in writing

Supervisory Responsibility

This position has no direct supervisory responsibility but does serve as lead to some and as a coach and mentor for other positions in the department.

Work Environment

This job operates in a professional office environment. This position requires frequent contact with the public, which may expose incumbent to others' illnesses, high-stress situations, contact with clients and/or the public in uncomfortable, confrontational, and emotionally charged circumstances. This role routinely uses standard office equipment such as a laptop, desktop, smartphone, photocopiers, shredders, and filing cabinets. The noise level in the work environment is usually moderate.

Physical Demands

The physical demands described here are representative of those that must be met by an employee to successfully perform the essential functions of this job.
