

HRIS Business Analyst

Job Description

Department: Human Resources
Position: Career Service
Grade: 729
Supervisory: No
Reports to: Director – Human Resources

Summary

Under general guidance and direction of the Director – Human Resources, ensures effective integration of Human Resources Information System (HRIS) data and systems in a dynamic environment by developing, testing and implementing current, new, and modified Human Resources (HR) system functionalities based on established standards. Maximizes the use of technology to improve process efficiency and data accuracy.

Essential Functions

Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

1. Analyze and integrate HR data and systems to streamline existing processes, increase efficiency, and identify system solutions for developing new functionalities.
2. Manage complex projects with multiple deadlines and interdependencies.
3. Apply project management methodologies to determine, gather, and document business processes, technical and operational requirements, testing, and implementation of current, new, and modified HR system functionality.
4. Develop and execute test cases to validate system functionality; identify and resolve system defects and issues; coordinate system implementations and upgrades; and provide user training support.
5. Act as a liaison between HR and County agencies to provide day-to-day system support.
6. Collaborate with departments and information systems team to assess needs for various business functions, translate business functional requirements into technical specifications, and recommend appropriate scope and solutions.
7. Responsible for troubleshooting and problem-solving complex issues related to system functionality, application development, and data integrity.
8. Manage relationships with HRIS vendors and service providers.
9. Collaborate with vendor support organizations to research issues, log bugs, and request enhancements.
