

Health Educator II

Job Description

Department: Health
Position: Career Service
Grade: 723
Supervisory: No
Reports to: varies by assignment

Summary

Under direct leadership of the assigned supervisor, develops, designs, monitors, coordinates, evaluates, and administers health education and prevention activities in Utah County. Performs complex clerical, technical, and other required work at the full performance level.

Essential Functions

Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

1. Assess local health education needs; use surveys and other assessment tools; document and evaluate results and presents findings to division and/or program administrators; develop comprehensive local health education plans based on identified needs.
2. Coordinate local, state, and national campaign promotions for Utah County residents; implement awareness campaigns, media relations, and other social marketing plans.
3. Design and implement health programs in accordance with comprehensive local health plans; teach about cardiovascular disease, cancer, injury control, environmental health, communicable diseases, diabetes, and other health topics.
4. Develop multimedia and Web 2.0 initiatives to support program efforts.
5. Evaluate the effectiveness and impact of health education related to assigned program(s); conduct process, impact, and outcome evaluations.
6. Disseminate general health education information for divisions of the County Health Department; consult with and educate the divisions and/or assist in bringing together comprehensive prevention services throughout the county; assist in consultation services and networking with other agencies or groups.
7. Respond to public health emergencies as required by department or division administration.
8. Carry provided pager, cellular phone, or other emergency communication devices during all work hours and at all other times when unavailable by phone.

May be assigned duties from one or more of the following functions:

Health Promotion

1. Design and implement school curricula, clinic education, community classes, and public education programs; create graphics, flyers, brochures, and handouts on health topics.
2. Design and implement programs to reduce injuries from unintentional injuries or loss and injury from substance abuse related mishaps; conduct surveys to monitor program effectiveness.
3. Design and implement wellness programs for county businesses willing to participate; serve as a behavioral coach, when applicable.
4. Oversee budgets and expenditures for programs funded by various grants and contracts.
5. Develop policies designed to improve the health and well-being of the public.
6. Monitor the performance plan of grants; prepare annual renewal plans within the appropriate data reporting system.
7. Participate in community disease cluster investigations; evaluate the effectiveness of department programs in public health competencies and in responding to public health outbreaks and emergencies; work with epidemiological data available from state, federal, and local sources.
8. Collaborate on cross cutting programs within the Health Promotion Division.

Public Health Nursing

1. Lead implementation and evaluation of women's health prevention programs, communicable disease prevention programs, or others as assigned; oversee planning, as needed.
2. Oversee budgets and expenditures for programs funded by various grants and contracts.
3. Provide education about women's health, cancer prevention, cardiovascular disease, and communicable diseases, as assigned; make referrals to community resources; document progress of clients and coordinate medical contacts, as needed.
4. Educate, counsel, and obtain information for case management; visit homes and community agencies, as needed.
5. Maintain updated information on current public health issues related to women's health, cancer, cardiovascular disease, communicable diseases and other public health issues, as assigned.
6. Assist Bureau Director or supervisor in coordinating assigned program(s).
7. Monitor the performance plan of grants; prepare annual renewal plans within the appropriate data reporting system.
8. Lead advocacy and development of policies to prevent disease associated with public health issues; collaborate on cross cutting issues and programs within the Health Promotion division.
9. Use epidemiological data available from state, federal, and local sources to monitor communicable diseases and provide input about decreasing their spread.
